

CHEMICAL NAME

Anti-skinning agent, Methyl Ethyl Ketoxime

APPLICATION

Widely used in all kinds of Alkyd Resin paint(furniture paint and industry paint),PU paint, phenolic paint,roading marking paint, car paint, sealing paint for electroplating,epoxy resin paint and ink stocking process, to preventing it from skinning, and keep the stability of the viscosity.

TYPICAL PROPERTIES

Appearance: Colorless clean oily liquid

Purity: 99.5%MIN

PH Value: 7-8

Melting Point: -29.5℃

Boiling rang:144-153℃

Refractive index:1.4410

Ralative vapour density:3.00

Specific Gravity: 0.78

Flash Point:69℃

RECOMMENDED LEVELS:

Alkyd resin paint, phenolic paint:

0.3-0.6% PU paint: 0.1-0.2%

STORAGE AND TRANSPORT:

180kg/ plastic drum or 20kg/ plastic drum

STORAGE PERIOD:

2 years
